Quote of the Month:

“I don't sing in the shower; I sing in my car where the acoustics are way better and the audience is always more appreciative.”

Dear Members,

It was good to see the lots of members at our last meeting. Also had Michael Holding and his wife Claudia attend our meeting from the Victorian Veteran Car Club and gave us a quick update of the Rally they are having in October 2025 next year in Swan Hill.

The Austin Seven Club Rally in September this year have just over 50 members attending so far with their latest update new they sent via email last week. And thank you Lynton Smith for taking care of the little Austin they dropped off last month.

Our AGM this year will be held a week earlier due to most of the committee attending the Golden Oldies. The date for this meeting will be the 19th of August 2024.

Don't forget the Presidents Day is this month and we require **numbers by the 19th of July**. Thanks to those members already who have put their names down. As per flyer in this Manifold.

Thanks
President Dave

I finally got myself organised enough to venture out to the Breakfast at the Speewa hall. 12 bikes & 9 cars turned up making it a good get together. Bacon eggs & sausages were served which was very hearty breakfast enjoyed by all. After breaky we stood around the fire drum and had a chat, then one by one everyone went on their way. For those in the car club side of the club , I would recommend you make the effort to venture out to the breakfast as it is well worth it , not only for the hearty breakfast, but to meet & chat with the bike side of the club.

Cheers Your Editor

Motor Cycle Report

Weekend in Mildura with the Sunraysia Historic Motorcycle Club.

Kings Birthday Weekend

Only 3 of our Club Members attended, which was rather disappointing with all the effort that goes into organising these weekends. Myself (David Scott), Ken Swinnerton and Jack Scott from our club and 5 other non members attended to make 8, still a poor number when you consider how many members we have with historic bikes.

Anyway we still had a great weekend starting with setting up camp at the Motor Cycle Speedway, before being shouted a very nice meal in the clubrooms with the bar open and a lovely fire inside & outside.

Saturday morning we were going to the Wentworth Airport for a "Fly-in" but due to fog this was cancelled, so we left a little later and went to our next destination the Mens Shed at Darenton. You have to see it to believe it. This shed is massive, in fact it is an old packing shed that has been added to many times over the years. In the shed is many old cars, trucks, tractors, home built Cherry Pickers and a Sabre Jet. YES a full size jet, an almost finished cosmetic restoration for display at the airport. (Didn't see any old Fella's making wood dust here).

Saturday arvo we went to see the historic Chaffey Bros Steam Pump being fired up. This only happens on this weekend each year, and it was "ABSOLUTELY AWSOME". We finished off the weekend watching some historic solo & sidecar racing. Next year it is back to our club to be the hosts, probably in April.

Thanks to Kenny & the Mildura fella's and anybody else that helped organise the weekend.

Those that didn't make the trip missed a great weekend.

Hello everyone.

On behalf of AHMF & Federation VV & CVC could all clubs receiving this survey please distribute to members to complete, survey will take about 15 minutes.

David Burner has sent the email below and the link to the survey that we spoke of last Federation meeting. This is the one that AHMF donated money to so as people can do this research on a national basis.

There is a link in the attached flyer. If you google that it will take you to a facebook page of the CHMC in NSW who are assisting in this information gathering.

Please do send in a submission

Thanks

Neil Athorn

Hi all,

As discussed at our meetings The University of Canberra and the Australian Historic Motoring Federation are conducting a survey on current and future use of fossil fuels and lubricants in operating heritage machines.

Fossil Fuels keep our heritage machines working so whether you are a private owner, a small museum or a government funded institution, we are keen to know what types of fuels and lubricants your machines use and how you might prepare for a potential phasing out of fossil fuels. This could include historic motor vehicles, steam, aviation, maritime, farm equipment and early electric machines, or any other old machines that you keep in working order.

Help us prepare for the future of operating heritage by participating in our survey here: https://uoc.sydney1.qualtrics.com/jfe/form/SV_eYdZYPxnUunYd3o

Please distribute this to your member clubs for them to complete.

Best Regards,

David L. Berner
